

8. DIMENSIONS

See my notes on dimensions and using this knowledge, draw in the dimensions of each SPACE and WALL THICKNESS and OVERALL DIMENSIONS.

9. NOTES and SPACE TITLES

In your best lettering (again using very light guidelines about 2.5mm apart) add in the notes to explain the objects drawn, then add Space Names in 3.5mm high lettering. Of course you will add in the title block details as covered in the Title Block notes.
