DOORS 2

DOORS IN WALLS

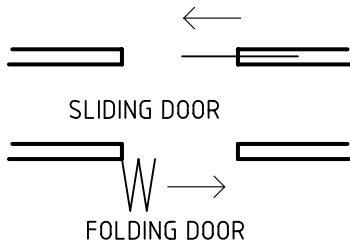

The DETAIL needed to be shown when drawing walls in plan and section varies with the scale used. For large scaled details such as 1:20 much more detail is shown than the diagrammatic representation at scale 1:100.

Examples of the degree of detail needed are shown below

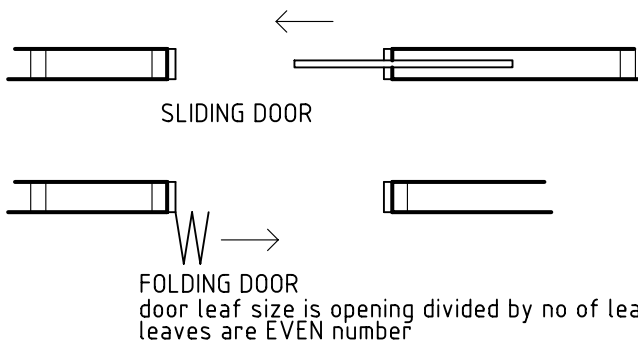

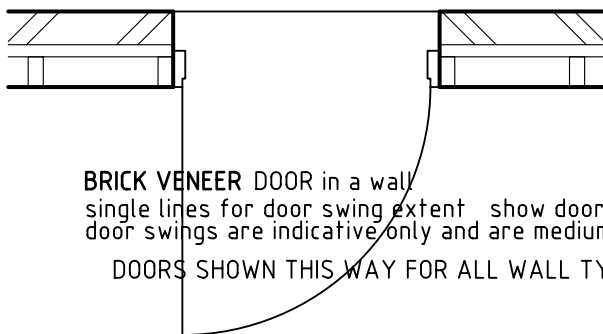

1:100 scale DOORS

DOORS SHOWN THIS WAY FOR ALL WALL TYPES

1:50 scale walls

NOTE door frame shown about 10-20 clear of wall frame to allow tolerance for installation

in all cases...line weight chosen is to allow good definition between cut-through and "seen below" objects

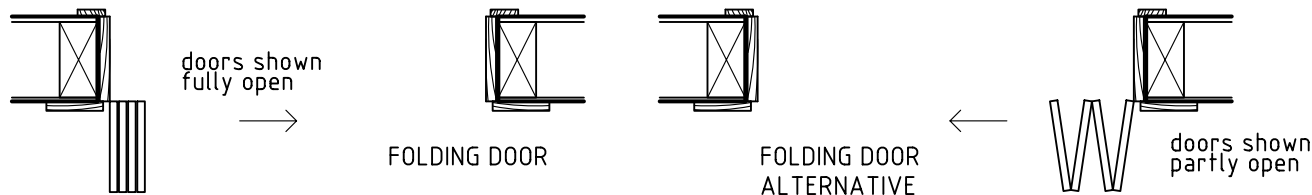

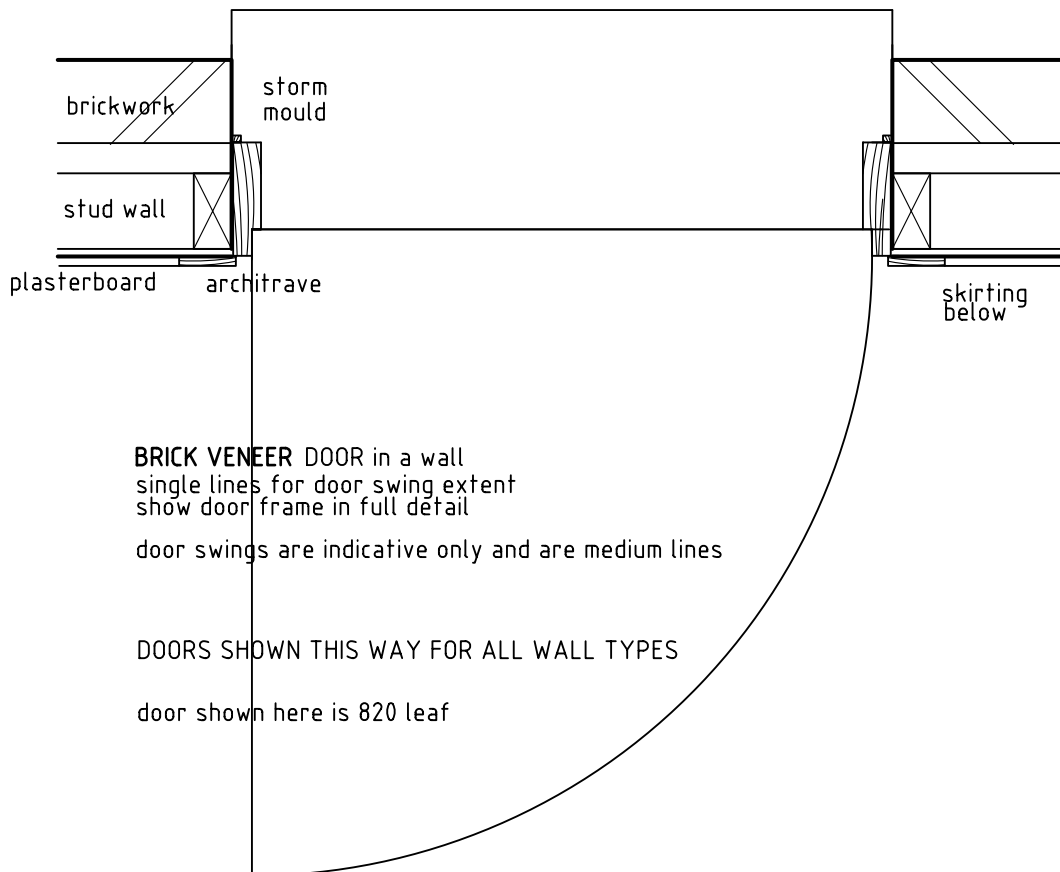

ALWAYS ASK me if you don't understand anything on these drawings

DOORS 3

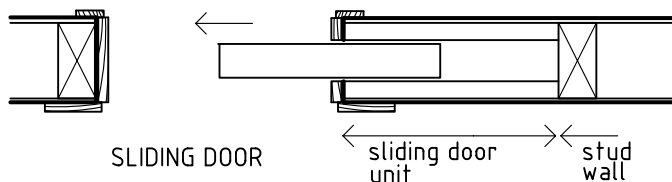

DOORS IN WALLS

1:20 scale walls

brick or tile threshold
